## **EFFICIENT HOUSEKEEPING**

By LAURA A. KIRKMAN.

DOES YOUR CHINA HARMON- however, may be used day in and day out on the home table INGS?

Two young housekeepers have Canton china in the familiar written to ask me for an article on the choice of china. "I would known ware. It is inexpensive and way he would be contained." on the choice of china. "I would like a handsome monogramed set of china," reads one of these letof china." reads one of these let-ters, "but I am just married and still another ters, "but I am just married and we have hardly enough money for necessities." The other letter contains this question: "Our dining room is furnished in mission and our living room with stained will."

pleces are broken.

Still another Oriental ware called "Howo" ware comes in an "open pattern" and this is simple and disnified for the little home: this ware comes in blue and white. tains this question: "Our dining room is furnished in mission and our living room with stained willow furniture. Would a set of china embossed with gold bandings be appropriate for our home?"

Now, I don't think one needs a knowledge of interior decoration to agree with me that "showy" china such as these two readers want, is not for the simple home. A small not for the simple home. A small inhave china in keeping with its simplicity. China with a striking pat-which are simple in shape, color have china in keeping with its sim-plicity. China with a striking pattern is just as much out of place in the modest home, as china bear-ing a coat of arms would be in a

What, then, is appropriate for the average young housekeeper who starts her married life in a "cottage for two" where economy is a most important consideration? I can recommend some of the fol-

I can recommend some of the fol-lowing wares;
Almost everybody is familiar with "Sedji" ware. It is of one tone (a cool, refreshing green), whose glaze is satin-like in texture. Other solid colors—yellow, old-rose, old-blue and mauve—may also be found in Oriental pottery, but these colors are norbors betbut these colors are perhaps bet- our china is this: Make a color suited to the ten-tray than to that looks appropriate with the dining table. The green Sedji, general interior of the home,

for all meals, without grating on the nerves.

Canton china in the familiar St. John Cathedral church at 8

pleasing.

Another drastic departure from the conventions of our furebears, is the use of different wares of china for the various courses of a Great-grandmother, meal. prided herself on her hundred-plece dinner-set, would gaze with horror on our plain white soun plates, our patterned dinner plates. our cool green salad plates and our glass desert plates—none of which wares "match" in any way!

Indeed, about the only set rule we must follow today in choosing our china is this: Make a choice

this diamond away from us unless I hide it, and play a trick on him."

venture, due to small crowds turning out to see the Bambino.

NEW FABRIC MAKES SMART CAPE SUIT

BY ELOISE.

There is a new fabric just put on the market which is called by the entrancing name of trelaine. It is a woven fabric on the order of jersey with a rougher, "woollier" surface, making ideal sports or knockabout garments. It has been used to make knicker suits, tallored suits, frocks and the newest idea is the cape suit pictured.

The suit is made up of a one-piece frock fashioned on straight lines with a side front opening and collar, cuffs and buttonhole of knitted banding. The short sports cape which matches the frock is cut on ample lines in cirfrock is cut on ample lines in cir-

# Social Calendar ELECTRIC HOME

Keeping house electrically has

The kitchen has dishwasher, range, utility motor, fireless cook-er, fan, automatic electric refrigerator, waffe from and drink mix-er; in the basement are the electric washer, churn, the big fromer and electric from clothes dryer, fur-nace heat regulator and ice cream freezer. The bedrooms have heat rads, electric swing mechine, et freezer. The bedrooms have near pads, electric sewing machine, vi-brator, fan alr heater, curling iron,

comb and immersion water heater.
Lighting, furnishings and hangings in each room form a perfect unit of color and design. Something more than work thing more than work, material and appliance have been put into this home—careful thought—which is the basis of home comfort and convenience.

### CORRECT LIGHT IS NECESSARY IN EACH ROOM

The dining room-an average total of 150 watts for center light, bracket and boudoir lamps.

Halls, stairways, porches and at-tic need 50 watts each. The laundry requires 200 watts

a main light and a drop light over the work-bench.

All lamps should be shaded. In the home frosted or diffusing lamps are desirable. Tinted lamps are adding the beauty of color in homes, but in order to modify all the light it is necessary to sur-round the lamps or light sources with colored silken screens. Slik with colored silken screens. Silk shades are not hard to make and with their aid delightful tints

head! Don't you see me?" and the kyoice laughed merrily.

Mr. Longears caught sight of a frisky reddish taff and something with stripes that were almost like those on his barber pole rheumatism crutch, only the stripes ran the other way.

"Jennie Chipmunk, is that you?"

"Tenlie Chipmunk, is that you?"

"Quick" cried the Crow. "In the winter or early spring. It is really designed as a spring garment, but will be found quite comfortable on snappy days.

SHE DESIGNS AND SELLS MONUMENTS

Mrs. Bessie T. Redman. Among the successful business comen on the Pacific coast is Mrs. Sessie T. Redman of Seattle, Mrs. Redman conducts a unique estab-lishment, being one of the few women in the country to own and manage a monument company, supplying the public with all maner of tombstones, monuments and

markers, For four years Mrs. Redman has been head of her own company. She designs most of her tomb-stones herself and not long ago she invented a neat permanent marker to displace the old-fashioned headboard. Other innovations are also

credited to her.
"The business I am in brings me "The business I am in brings me closely in touch with the more sprious part of life," said Mrs. Redman when interviewed, "and many a heart is revealed to me. I find myself in the same father confessor position which a minister, doctor or lawyer does."

oven; reduce the heat; baste every fifteen minutes until turkey is cooked which will require about

cooked which will require about three hours."

Imagine spending the entire morning of a festal day standing over a hot stove and basting a tenpound bird every fifteen minutes for three hours! It is a wonder that our mothers survived such an ordeal. With the improvement in cook stoves, especially with the advent of modern electric overs, the method of procedure is entirely different and much ensier.

In the first place, don't use a

In the first place, don't use a double roaster, use open pan only for roasting meats or a big fowl and do not leave the top heater of the electric oven on. Don't use any water at all in roasting meats, as the shrinkage is less and natural enter light and sewing table the shrinkage is less and natural amp.

The garage needs 225 waits for main light and a drop light over weight of every roast cooked in the modern electric oven. If you wish to retain all of the julces in meats, or reasts, do not season it until it is cooked. Salt is said to draw the julces out of meat.
